Demand for butter does not show much sign and it is a good deal of a buyers' market, save on fancy stock, receipts of which are seasonably light and no more than ample for regular trade requirements. The export demand is still the price-making influence in the cheese market. Fresh eggs find a good, steady sale and, with a close clearance, recent prices are well maintained.

BEEF CATTLE FIRMER.

Larger Offerings of Better Class Stock at Brighton Market.

Brighton, Mass., Dec. 15.—At the Brighton stockyards yesterday, eastern trains were in fairly early, in spite of the storm, and prices held up very well. Best heavy cattle were firmer and offerings were of better grade. Hogs were somewhat easier, though local receipts were light.

Arrivals at Brighton for the day were 20 cars from the Boston & Maine railroad and two cars from the Boston & Albany.

Beef cattle stiffened a little, with larger offerings of the better class of stock. Buyers were not offering over 8c, but some fancy cattle were held as high as 9c. Average cattle generally sold at 7½@8c, with good cattle at 6½@7½c and light cattle 5½@6½c.

Some fancy cows brought as high as 6c, the average for tops being 5½@6c, with good cows at 5@5½c, ordinary cows at 4@4½c and canners at 3@3½c.

Small bulls were easy, the range for offerings of the day being 4@5½c, this including bologna bulls as well as beef stock.

Best calves sold at 8@9c, with some fancy at 9½@10c. Fair lots brought 7@8c, and grassers and drinkers 4@6c.

Hogs were easier, especially for small lots, which brought 6½@6¾c. Car lots would have brought 7c for the best. Rough lots sold at 5½@6½c, with boars at 3@3½c.

Best lambs sold at 8@8½c, and sheep brought 4@6c.

Milk cows were steady, with large offerings of ordinary stock. Best cows were quoted at \$100 and up for fancy milkers, with good cows at \$80@90 and ordinary cows at \$35@50.

Here's Nature's Own Remedy for Catarrh

Hyomei Relieves Catarrh Without the Use of Dangerous Drugs

Not until Hyomei was discovered has it been possible to truthfully say that a real remedy for catarrh was known.

Hyomei is an oil, and its air is breathed through a small inhaler furnished with it for a few minutes four times a day, and during that time every particle of this Hyomei-laden air taken into the air passages and lungs is impregnated with a powerful germ-killing and health-giving antiseptic.

Sprays and lotions often cause disorders of the respiratory tract or bring on some other disease and never make a permanent cure of catarrh. But when the air of Hyomei penetrates to the innermost air cells of the lungs and enters the blood with the oxygen it not only kills the germs in the throat and nose, but kills the bacilli in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

The Red Cross Pharmacy have so much faith in the merit of Hyomei that they agree to return the money to any purchaser who is not thoroughly satisfied.—Adv.
